SPECIAL FINISH MATCH

Harden can match the finish of your new purchase to a family treasure or other pre-existing item in your home. As long as a sample is provided, we can develop a finish, document it for our records, and provide you with a panel for your final approval.

An identification number is assigned and recorded in our system in the event the same finish is required on a future purchase.

Any finish that is an exception to the standard Harden finish offering must be treated as a special match.

Additional charges are applied to all Special Finish Match orders.
